AFTER THE STORM HAS PASSED

Settling disaster claims:

Who to call and what to do

What to do after the storm?

Call yo	our agent:						
	Agent's name and phone number						
	Ask for policy number and renewal date						
	Ask about a housing allowance						
	Ask about storage to secure items						
	Ask about car rental						
Repor	t your claim:						
	Phone number to report claim						
	Date claim reported						
	Insurance claim number						
	Insurance company						
When	you call, have on hand your:						
	Insurance agent's name and address						
	Insurance policy number and renewal date						
Be pre	pared to give:						
	Complete directions to your home						
	Your temporary address and how to find you						
	A cell phone number if you have one						
Write							
	The claims reference number						
	The name of the person you talked to at the insurance company						
	When you called and other pertinent information						
Ask al							
	Details on filing a claim, including any deadlines						
_							
<u> </u>	Arrangements for an adjuster to inspect the damage						
Ц	Temporary housing and living expenses if you can't live in your home						
П	Car rental if your vehicle can't be driven						
_	Car rentar ir your vemere can t be driven						
When	the adjuster arrives:						
	Adjuster's name						
	Adjuster's business address and phone number						
_	- 125 acres a commence and priorie frames.						
Begin gathering information to support your claim:							
_	Photos						
	Receipts						
	Detailed list of items						

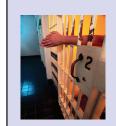

Prevent further damage by covering roof, windows and removing water (only if you can do so safely). Don't agree to final settlement until you're satisfied. You are entitled to independent estimates.

If you haven't heard from your agent, adjuster or insurance company within 3 days, call us at the Kentucky Department of Insurance, Consumer Protection and Education Division: 800-595-6053; TDD 800-648-6056 for the deaf/hard-of-hearing.

AFTER THE STORM HAS PASSED

First a few words about safety – never try to reenter your home or attempt any repairs unless it is safe to do so. Watch for broken power lines, shattered glass, splintered wood or sharp protruding objects and mud-slicked walkways. Don't use electrical appliances that have been exposed to water unless they've been checked by a technician.

Contact your insurance company as soon as possible. Call your agent, the company's toll-free number or get in touch with the company's representatives in the area. The local operations center/disaster information center should be aware of what companies have teams in the area, their locations or contact information. Typically, announcements will be made on the radio and in newspapers.

Don't let a con artist talk you into filing a phony claim.
Insurance fraud - lying to an insurance company to get money - is illegal.

WHAT HAPPENS NEXT

The insurance company will send a *claims adjuster* to look at the damaged property and talk to you about your loss. A claims adjuster is a person professionally trained to assess the damage. Meet with your insurance company adjuster <u>first</u>, before signing anything with contractors, lawyers or *public adjusters*. Public adjusters are not connected with the insurance company and charge fees for their services

It may take some time for a claims adjuster to get to your house. If many homes are damaged, they may have several sites to visit. Also, police may stop people from entering an area until it's safe. Please be patient.

In a large disaster, adjusters may be called in from across the country. Many of them may not be familiar with your area and will need very detailed directions to locate your property. If you are not able to stay in your house due to the damage, be sure to tell your company where you can be reached. If possible, give them a cell phone number where you can be reached at all times.

If a reasonable amount of time passes (about three days for a major disaster) and you haven't heard from your adjuster, contact the Kentucky Department of Insurance. Talk to the Department's disaster team members on site or call the toll-free number, 800-595-6053, and ask for the Consumer Protection and Education Division. (TDD for the deaf/hard-of-hearing: 800-648-6056.)

While you wait for the adjuster

	Make sure your address is visible from the street. One idea: paint your insurance company name, your policy number and your temporary address on a sheet of plywood.
	Take action to prevent further damage to your property — cover holes in the roof and windows and remove as much water as possible from the house. <i>Don't make permanent repairs until the adjuster has inspected the property.</i>
	Move important papers and items not covered by insurance to a safer location.
	Make a list of everything you would like to show the adjuster when he or she arrives.
	Seek shelter elsewhere if necessary, but leave information on where you can be contacted.
Makin	ng a record
	Create a detailed list of damaged items.
	Take photos of the damage. This is very important if you must throw away or move items before the
	adjuster has seen them. Save a remnant of items that must be thrown away.
	Keep <i>all</i> your receipts (for tarps and a wet/dry-vac, for example) and document the time you spend
	securing your property.
	Keep a record of conversations with insurance personnel and other officials including the person's name, the time and date and a summary of what you talked about.

When the adjuster arrives				
	Ask for identification.			
	Get the adjuster's name, his/her local phone number and company.			
	Ask questions if there's anything you don't understand and take detailed notes.			
SETTLI	NG YOUR CLAIM			
Some t	hings to keep in mind			
	You are entitled to be reimbursed fairly for your loss, but you are not supposed to make a profit.			
	You can't collect more than the face value of your policy.			
	You can't collect for uninsured items, such as landscaping.			
	Lodging and living expenses should be reasonable and you should keep receipts.			
	Most policies cover tree removal if it falls on a covered structure. The value of the tree is usually not			
	covered and your policy won't pay to remove it if it doesn't damage anything when it falls.			
	Depending on the type of loss, your insurance may pay for removal of debris from your property in			
	association with that loss. Coverage for debris removal may be limited to a specific dollar amount.			
	Read your policy or check with the agent or company for details.			
	Inspect your roof or have it inspected if you were in the disaster area but aren't sure about roof dam-			
	age.			
	The first check you get from your insurance company is often an advance, not a final payment.			
	If you're offered an on-the-spot settlement, you can accept the check right away but make sure that			
	if you find other damage you can "reopen" the claim and file for an additional amount. Most policies			
	require claims to be filed within one year from the date of disaster.			
	Don't agree to a final settlement until you are satisfied that it is fair. You are entitled to obtain inde-			
	pendent estimates if you wish.			
	Don't sign anything that limits the company's future obligation. For example, it might take months to			
	discover earthquake damage to your foundation.			
	your car			
	ken glass or body damage is covered only if you have <i>comprehensive insurance coverage</i> . You <u>are</u>			
	rered if you only have <i>liability insurance</i> . Comprehensive coverage covers replacement of glass with-			
out hav	ing to apply your deductible. It will pay for repair of body damage after payment of your deductible.			
AVOIDI	NG THE "FLY-BY-NIGHTERS"			
Cor	ntractors may be in short supply if there's a major disaster. Don't let desperation put you in a position			
to be rij	pped off. Here are a few tips to help you avoid common scams.			
	Avoid repair scams by dealing with reputable licensed and insured local contractors you know or can			
	check out. Ask people you trust for recommendations.			
	Do not deal with "fly-by-night" remodelers who go door-to-door, especially those not known in your			
	community or those who offer greatly reduced prices because they say they just completed work			
	nearby and claim to have materials left over.			
	Don't be afraid to ask for identification, especially if money is changing hands, and proof of general			
	liability and workers' compensation insurance.			
	Don't spend a lot of money on temporary repairs. Remember that payments for temporary repairs are			
	part of the total settlement. If you pay a contractor a large sum for a temporary repair job, you may			
	not have enough money for permanent repairs.			
	Insist on a written contract that includes a description of the work, total cost and completion date.

BEFORE THE STORM HITS

No area is completely safe from the possibility of natural disaster. You can get specific information about what to expect in your community and how to prepare by contacting your local American Red Cross. Or go online at http://www.redcross.org/.

After you put together a family disaster plan to address personal safety issues, you will want to give some thought to protecting your investment in your home and property. Here are some tips from the Kentucky Department of Insurance (DOI):

- Review your insurance policies to see if you have adequate coverage. If you're not sure, talk to your agent or call the Kentucky Department of Insurance (800-595-6053 or the TDD line for the deaf/hard-of-hearing: 800-648-6056). Insurance experts suggest you contact local contractors in your area to get an idea about rebuilding costs. Also, keep in mind you may have to bring your home up to current building codes rather than just restoring it "the way it was." Ask your agent if your policy will pay for the additional expense of bringing it up to code.
- Keep policies and other important papers together in a safe, easily accessible place.
- Inventory your personal property including model and serial numbers and purchase information. Do not overlook items you use seasonally or infrequently.
- Back up your inventory by videotaping and/or photographing each room in your house and storing this visual record outside your home.
- Make copies of insurance policies, your household inventory and other important papers and send them to a trusted friend or family member who lives outside your area.
- In your disaster supply kit, include cameras and extra videotape or film (or disposable cameras) and a notebook and pens for use in documenting your losses.
- Include the phone numbers of your insurance agent, your insurance company's local claims office and home office in your list of emergency numbers.

FREQUENTLY ASKED QUESTIONS ABOUT FLOODS & EARTHQUAKES

My homeowner's policy does not cover flood damage. How do I get this coverage?

Flood insurance is available from the National Flood Insurance Program. If your community participates in this program, you can purchase flood insurance regardless of your degree of risk. You can purchase NFIP insurance from a local agent or call 888-379-9531 for more information. The average flood insurance policy is affordable, certainly less expensive than a disaster loan. There is a 30-day waiting period before coverage goes into effect, so plan ahead if you are interested in obtaining this coverage.

I have coverage in case of an earthquake. How is my deductible calculated?

In Kentucky, the deductibles for earthquake insurance may vary based on your region of the state. Remember, this deductible is based on the value of your policy. For example, if you live in a county with a 10 percent deductible and you insure your home for \$150,000, you would be responsible for the first \$15,000 in earthquake damages. In this case, if the damages to your home were less than \$15,000, you would pay the entire amount for home repairs and your insurance company would pay nothing. Standard deductibles for policyholders living in each region are: 20 percent for far west region (Ballard, Calloway, Carlisle, Fulton, Graves, Hickman, Marshall and McCracken counties); 15 percent for the near west region (Butler, Caldwell, Crittenden, Daviess, Hancock, Henderson, Hopkins, Livingston, Lyon, McLean, Muhlenberg, Ohio, Trigg, Union and Webster counties), and 10 percent for the remaining counties. These are the standard deductibles companies are required to offer. However, companies may offer higher or lower deductibles as an option.
